

Mathematics on Grid 2010

Can't find the subjects you want at your University?

The Access Grid gives senior and honours mathematics students the opportunity to study selected subjects from eleven Australian Universities for credit towards their degree. Subjects offered in 2010 include Topological Groups, Communicative Algebra, Statistical Inference as well as many others.

Subjects for the Autumn semester will be confirmed by late February, for information & updates go to www.ice-em.org, www.nGAME.edu.au or speak to your honours coordinator.
